**GeneIQ Vaccine Direct Partners with Dallas Children’s Advocacy Center to Offer Free, On-site COVID-19 Vaccines to the Public**

*Local Laboratory Continues to Offer On-site Vaccination Events to Organizations and Facilities*

**DALLAS, TX** (June 28, 2020) – GeneIQ Vaccine Direct, a division of [GeneIQ](#), a Molecular Diagnostics company based in Dallas, has partnered with the **Dallas Children’s Advocacy Center** to offer **free Pfizer and Johnson & Johnson COVID-19 vaccinations to the general public on Saturday, July 10, 2021**. The vaccines will be available from **10 a.m. to 2 p.m at Dallas Children’s Advocacy Center**. There is no limit on the number of vaccines GeneIQ will provide during the event, and the second doses of the vaccine will be provided at the same location at a later date, which will be disclosed to patients. Valid candidates must be ages 12 or older, and minors must be accompanied by a parent or guardian. The vaccine is free through insurance or through a federal program for those without insurance.

“GeneIQ is thrilled to continue their partnership with and support of the Dallas Children’s Advocacy Center, along with the greater Dallas-Fort Worth area, by providing free COVID-19 vaccines to its constituents and to the general public,” says Marisa Howard, Director of Communications for GeneIQ. “We feel that giving back to the community in this way aligns with our mission to impact the greater health and humanity of as many people as possible throughout the pandemic.”

This partnership with the Dallas Children’s Advocacy Center is part of a strategic initiative by GeneIQ’s vaccine direct division to support schools, corporations, and community organizations with zero-cost, on-site COVID-19 vaccinations. An on-site medical team is provided, along with a registration platform, to ensure efficient processing and that all state reporting requirements are met. Patients can receive the vaccine at no cost with insurance or through the federal government program for the uninsured.

The vaccine event will take place at the Dallas Children’s Advocacy Center, at 5351 Samuel Blvd, Dallas, TX 75228. Pre-registration for the event is available at <https://usa.quickscreen.health/geneiq-vaccination#/screening> and walk-ins are also welcome.

To find out more about GeneIQ and their other diagnostic offerings, visit [GeneIQ's website](#). To schedule an appointment for vaccines, call 972-942-0110 or send an email to [vaccine@geneiqlab.com](mailto:vaccine@geneiqlab.com).

### **About GeneIQ Vaccine Direct**

GeneIQ Vaccine Direct is committed to supporting schools, corporations, and organizations with zero-cost, on-site COVID-19 vaccinations. GeneIQ Vaccine Direct is DSHS approved to administer the Moderna, Pfizer, and Johnson & Johnson vaccines and boosters.

GeneIQ has been a trusted resource throughout the pandemic and has serviced over a quarter of a million patients across the nation, playing a pivotal role throughout the pandemic. GeneIQ Vaccine Direct provides on-site vaccines and boosters in a safe and convenient process at no cost to the patient or to the organization. The supplies, medical staff, and registration platform are all included with end-to-end service.

### **About GeneIQ**

GeneIQ is a high-volume, molecular diagnostics laboratory specializing in Pharmacogenomic (PGx) testing and real-time, reverse transcriptase polymerase chain reaction (RT-PCR) testing for urinary and respiratory infections, such as COVID-19. The state-of-the-art laboratory based in the Dallas area services over 500 long-term care facilities, physician practices, state and local governments, corporations, and organizations throughout the United States. They have created a highly efficient, automated lab process with a paperless, web-based system that provides a 24-hour turnaround time of results after receiving the specimen. At the core of GeneIQ lies the latest innovations in Pharmacogenomics, the science of determining how genetic variability influences physiological responses to drugs, from absorption and metabolism to pharmacologic action and therapeutic effect. In effort to provide precision medicine and to serve the needs of the pandemic with molecular accuracy, the support and management teams at GeneIQ are passionate about providing the highest level of service to their clients and to the overall healthcare industry.

### **About Dallas Children's Advocacy Center (DCAC)**

DCAC is the only agency of its kind in Dallas County, working in agreement with public and private agencies to investigate, prosecute, and provide healing services for child abuse cases in Dallas County. The Center reduces the re-victimization of the child, removes barriers to investigation and treatment, and enhances criminal prosecution with their distinctive multidisciplinary and united approach to these complex and severe cases.

DCAC is a national and international leader in the Children's Advocacy Center movement, recognized for their expertise in the identification, investigation, and prosecution of child abuse cases; cutting-edge clinical services and programs for victims and their non-offending family members; and their community and professional training programs.
